When I go to work or when I have a meeting, I prefer wearing smart clothes, and I have three or four nice suits. When I am at home, I like comfortable clothes, usually jeans and a T-shirt.

6 **Sample answer**

I live in a village, in a small stone house with a garden. Downstairs we have a sitting room with a table where we eat, and we have a kitchen. Upstairs we have two bedrooms and a bathroom.

I like the countryside best. It's very pretty, and there are lots of places where you can go for walks. There's a river in the village that's nice to sit by, and there is also a forest near here.

8 **Sample answer**

I would like to live in a big city like London for a few years. London is very exciting – there are lots of shops, cinemas, theatres and restaurants. But after a few years, I'd like to come back to the countryside.

Hi Molly. That's great news about your painting course – well done! I am sure you'll have a great time because your paintings are amazing. What kind of course is it? Do you have to go to lessons or can you do it online? Is it a short course or a long one? And what happens at the end of it? I know you're worried about your job at the restaurant, but I think you should keep it. It's always good to have a bit of extra money.

Speaking Part 3 Talk Page 4

Sample answer

I'm going to talk about street markets and supermarkets. We have a street market near us every Wednesday, and I always go there for my fruit and vegetables. The man who sells them is really friendly, and he often tells me what I should buy. Everything is really fresh. It costs about the same as the supermarket, and I feel happy because I am helping the farmers near here. I also go to the supermarket once a week because there are lots of other things that I need to buy, for example, meat, shampoo, chocolate, and so on. The supermarket sells lots of really nice things, so it's easy to spend a lot of money there.

Speaking Part 4 Follow-up questions Page 4

1 Sample answer

I prefer buying clothes online. I think it's much easier than driving into town and walking round the shops. I know it's difficult to get things that are the right size when you do internet shopping. But there's an answer to that problem. When I buy a shirt, for example, I buy two sizes – a small one and a medium one. When they deliver it, I see which one I like best. Then I send back the one I don't want.

2 Sample answer

The best time to go shopping in my area is early in the morning, at about 8 o'clock. The bread shop opens at 8, and I love the smell of fresh bread, so I always buy something there. The supermarkets also open at 8. At that time in the morning, the town is very quiet. The schools open at 8.30 and the people in offices start at 9 o'clock, so at 8 it's very easy to find a place to park and the shops are empty.

3 Sample answer

It can be dangerous to buy things online. There are some bad people and they try to get information about your bank card or your bank account. Then they can steal money from you. It is very important to be careful when you are buying things online. You should always try and buy from shops that you know. And if something is much, much cheaper than it should be, there's probably something wrong.

4 Sample answer

In the future I think there will be more shops online, and there won't be any shops in the town centre. In my town we used to have about 50 shops, and now there are about 20. It is very difficult for small shops to make money. People always want to buy things that are cheap, and a small-town shop will always be more expensive than an internet shop. In the future there will probably be just cafes and sandwich shops in town centres.

5 Sample answer

There are lots of reasons why people don't enjoy going shopping – and I am one of those people! I hate shopping. First of all, shopping is hard work. I have to drive to the station, find a parking space, get on the train, and then walk to the shops. The shops are full of hundreds of people, so everything is slow and you have to wait for hours. Then you have to carry all your heavy shopping bags back to the train. No, thanks!

6 Sample answer

I don't think shopping is a social activity. A few years ago, I went shopping in London with my wife. The streets were noisy, the weather was hot and I was tired. Every time I wanted to buy something, she said 'no'. Every time she wanted to buy something, I said 'no'. She got angry with me and I got angry with her. It was terrible. Anyway, we don't go shopping together anymore, and we are much happier.

Hi Charlie

Thanks for your email – I'm really looking forward to our nature walk next weekend, too. We can get there by train or by coach. The train is faster, but it's more expensive, so I think we should take the coach.

I'm not sure what the weather will be like, but it is summer now, so it will probably be OK. However, I know it rains a lot there, so let's check the weather forecast before we go.

That's great news about your cousin Danny. He's a great guy. I met him at your birthday party last year – do you remember? I think it will be fun if he is there, too.

Bye for now

Sample answer – essay

There are lots of cars in city centres these days and they cause a lot of pollution. This is bad for the environment. However, people need to get to work or school, so we need to find a better way of travelling.

One idea is to have really good trains and buses. Then people won't want to travel by car into city centres and there will be less pollution. A lot of cities have underground trains, and they are also a great way of travelling around.

Another good idea is to cycle. This is good for the environment and it's also very healthy. However, it can be dangerous if cars and bicycles are on the same roads. We need more roads that are only for bicycles.

In conclusion, we should still allow cars into the city centre. However, if there are more trains, buses, and cycle lanes, people will use public transport and will leave their cars at home.

Sample answer – article

I don't want to thank one person, I want to thank two people – my parents.

They have always helped me when I needed it. They are always very kind and patient and took care of my sister and me. They made me do my homework when I was at school, and this helped me when I wanted to go to university. They helped me find a job at weekends, and took me to work when the weather was bad.

My parents taught me lots of different things. My mum taught me how to drive, and now I have my own car. My dad taught me how to cook, so when I went to university I could cook my own food and save money.

I don't say 'thank you' enough to them, but in this article, I want to say thanks, Mum and Dad. You are the best, and I am so happy that you are my parents. Thank you!
